MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The key areas of Management Discussion and Analysis are given below.

Overview

The financial statements have been prepared in compliance with the requirements of the Companies Act, 1956, guidelines issued by the Securities and Exchange Board of India (SEBI) and the Generally Accepted Accounting Principles (GAAP) in India. Our Management accepts responsibility for the integrity and objectivity of these financial statements, as well as for the various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present our statement of affairs, profits and cash flows for the year.

Industry Structure & Developments

On the inflation front, last year saw consistent easing of headline WPI inflation which came close to the Reserve Bank's tolerance threshold by March, 2014. However, the food price pressures and endemic supply constraints continue to persist suggesting a cautious approach by RBI in near to medium term. In its latest annual monetary policy, RBI has indicated that the balance of risks stemming from its assessment of growth-inflation dynamic yields leaves little maneuvering space for further monetary easing. RBI's current assessment is that activity will remain subdued during the first half of this year with a modest pick-up in the second half. Agricultural growth could return to trend levels if the monsoon is normal as recently forecast. The outlook for industrial activity remains subdued

Segment Wise or Product Wise

The global economic scenario has remained volatile and weak market sentiments continued in Fiscal 2014, worsened by the absence of major policy developments during the year. Most Indian markets experienced continued moderation of absorption.

Outlook

As your Company continues to implement its strategies, its financial condition at the end of Fiscal 2014 reflects the on-going effect of the above economic and business factors. Your Company believes that demand conditions in the real estate sector are exhibiting early signs of improvement, and signs of declining interest rates as well as renewed activity in the ending and public capital markets are expected to ease funding pressures. Hence, the Company is expecting to improve its performance and profitability in future.

Opportunities & Threats

Your Company plans to focus on the development of certain key projects in the country. In addition, your Company also intends to launch the sale of plotted developments at several locations in India. Business opportunities for the company are enormous as the new areas and segments are being explored. A larger segment of customers remain uncontained by large Companies. Your Company on its part is also well poised to seize new opportunities as they come.

Risks & Concerns

Your Company is exposed to a number of risks such as economic, regulatory, taxation and environmental risks and also the investment outlook towards Indian real estate sector. Some of the risks that may arise in its normal course of its business and impact its ability for future developments include inter-alia, credit risk, liquidity risk, counterparty risk, regulatory risk, commodity inflation risk and market risk. Your Company's chosen business strategy of focusing on certain key products and geographical segments is also exposed to the overall economic and market conditions. Your Company has implemented robust risk management policies and guidelines that set out the tolerance for risk and your Company's general risk management philosophy. Accordingly, your Company has established a framework and process to monitor the exposures to implement appropriate measures in a timely and effective manner.

Internal Control System and Adequacy

Current Investments are stated at lower of cost and market rate on an individual investment basis. Non Current Investments are considered 'at cost' on individual investment basis, unless there is a decline other than temporary in the value, in which case adequate provision is made against such diminution in the value of investments.

03 RECOGNITION OF INCOME & EXPENDITURE

Income & Expenditures are accounted for on accrual basis, except Dividend which is accounted for on Receipt Basis.

04 FIXED ASSETS

An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use. In assessing the value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

ii. After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

07 TAXES ON INCOME

Current Tax is determined as the amount of tax payable in respect of taxable income for the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

10 PROVISIONING FOR DEFERRED TAXES

The Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961.

Deferred Tax resulting from " timings difference " between book and taxable profit is accounted for using the tax rates and laws that have been enacted or substantially enacted as on the Balance Sheet date . The Deferred Tax Asset is recognized and carried forward only to the extent that there is a reasonable certainty that the assets will be realized in future.
